

## **Moving on with Crystals**

**So now you have sampled and worked in depth personally with 10 crystals. You have journeyed well and received insights and healing from the crystals you have worked with. The crystals will have started a journey of personal transformation for you.**

**I hope that you will stay in touch with Crystal Heart Journeys as there will be other online crystal courses available in the future. Now available is a Gaia's Earth Medicine which is a year long journey around the eight seasons of the year working closely with Mother Earth's energies, her crystals and plants.**

**If you wish to take a professional route with the crystals, then please take a journey to [www.crystalheart.org.uk](http://www.crystalheart.org.uk) and look at the Crystal Courses page. Gwyneth offers a two year Professional Diploma in Crystal Healing which is accredited by the Federation of Subtle Energy Medicine.**

**I hope to meet with you *virtually* or otherwise in the near future and thank you for attending this online course.**

**Please do look out for your certificate which will appear in your email inbox.**

**Please also take a look at the pdf survey which has a few questions about how you found the course for our own feedback.**

**Please feel free to give us a short testimonial that we can share on the site.**
